Please refer to the text provided with this report for further explanations on the limitations of the data. DataNote2 The Census Bureau is aware there may be a problem in the Census 2000 employment-status data for people enumerated in group quarters. The problem may cause the labor force data for places, particularly those with high concentrations of people in group quarters ( such as colleges with large dormitory populations ) to overstate the number in the labor force, the number unemployed, and the percent unemployed and to understate the number of employed. For more information, see the Census 2000 Notes and Errata document at the following Census Bureau...
