Pecho o biberón?

By Gimeno Frontera, María del Mar Dolores; Frontera Izquierdo, Pedro

Editorial Síntesis, S. A., 2015. soft. Book Condition: New. Este libro está dedicado a la alimentación de la mujer embarazada y del bebé hasta los seis meses de edad. La alimentación del niño, y sobre todo del bebé, tiene una importancia esencial para su salud, crecimiento y desarrollo. Sus autores ofrecen una respuesta realista y a la vez emocional a la pregunta que se plantea la futura madre: ¿pecho o biberón? Dirigido tanto a los padres como a los profesionales de la salud, el libro expone las dos lactancias posibles, el amamantamiento al pecho y la lactancia artificial con biberón, de una manera científica y objetiva, pero a la vez clara y comprensible. Se aporta así una explicación detallada de datos actualizados así como las normas concretas de las dos lactancias, que permitirán a las futuras madres tomar sus propias decisiones y alimentar a sus bebés de la mejor forma posible, para que crezcan y se desarrollen adecuadamente. Aunque los autores insisten en que la lactancia materna es la natural y la mejor para el bebé, señalan que no se debe menospreciar o desdeñar la lactancia artificial, una buena opción en muchas circunstancias.

Reviews

The ebook is great and fantastic. We have read and i also am sure that i am going to likely to go through once again again down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Erica Turcotte**

The ideal pdf i at any time go through. It is really basic but unexpected situations from the fifty percent of your pdf. Its been designed in an extremely easy way and is particularly only after i finished reading this pdf through which really changed me, alter the way i really believe.

-- **Prof. Kendrick Stracke**
