## Revolutionary Biology: The New, Gene-Centered View of Life

By David P. Barash

Transaction Publishers. Paperback. Book Condition: New. Paperback. 213 pages. Dimensions: 9.0in. x 6.0in. x 0.5in. There is a revolution underway in biology. It is based on a new perception of bodies and genes, in which the former are the end product of the latter within the continuum of evolution. Twenty five years after Richard Dawkins helped revolutionize our thinking about selfish genes, it is time to re-evaluate. Revolutionary Biology explains in simple, vivid terms what this exciting approach has to offer, and then applies its stunning insights to human beings. This novel perspective, galvanizes our understanding of how evolution works, what living things are all about and, not least what it means to be human. The controversial disciplines of sociobiology and evolutionary psychology have generated startling insights into longstanding questions concerning the nature and purpose of families, altruism vs. selfishness, and free will vs. biological determinism. Written by one of its foremost figures, Revolutionary Biology is a manifesto and educated laymans guide to this ongoing revolution. Barashs purpose is to demystify the basic concepts of the genetic revolution and take the reader on a tour--accessible and authoritative--of the principles that underlie this fascinating turn in scientific thought. Much has been written...
