Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****. Excerpt from Yearbook of American Churches Benefiting by suggestions received, this second issue of the Year Book has been improved for purposes of reference by an index, by changes in type, by a better classification, and by the addition of new tables of statistics of Sunday-schools, of the distribution of communicants of many denominations by states, and of the chief Protestant bodies of the world. Other denominations would have been included in the distribution by states, but they were unable to make the compilation. It is hoped that they may provide for this hereafter. The general tables of statistics include, as heretofore, those organizations recognized as religious bodies by the United States Census Bureau. No attempt has been made to classify the denominations as evangelical, orthodox, non-evangelical, etc. With the statistical information given for all, any one can make for himself such lists as his judgment may determine. Those who want to ascertain the strength of the evangelical churches may begin with the constituent bodies of the Federal Council, for which a separate table is given at the end of the Directory of the Constituent Bodies, and add such other denominations thereto as, in his opinion, belong properly to the evangelical group. Hundreds of denominational statisticians and other correspondents have freely furnished information, and the editor hereby makes grateful acknowledgment of their favors.
